

Staggering 2021 government data from Western Australia tells the story.....and nobody is listening  
wilful blindness to the avalanche of covid injection adverse effects continues

phillip.altman Jul 15

It has become apparent that we cannot rely upon the current health authorities to admit to the enormous toll taken by the COVID injections.

Hospitals are finding it difficult to cope with the flood of sick patients, specialists are booked many months in advance, life insurance companies have reported a significant rise in sudden death in working age individuals and all-cause mortality statistics worldwide are continuing to show significant non-Covid mortality well above previous years without any credible explanation from the health authorities.

It is easy for the health authorities to hand wave away independent analyses pointing the finger to the COVID injections as the cause but now a bombshell vaccine adverse effect report from Western Australia will be difficult to ignore.

Here is what the report says.....

“In 2021 a total of 5,756,723 vaccine doses were administered in WA, up from 2,071,167 in 2020. Of this amount, 3,948,673 individual doses of COVID-19 vaccine were recorded in the Australian Immunisation Register (AIR) as being administered to WA residents. The increase in vaccine administration resulted in a significant increase in reports of AEFI, with WAVSS receiving 10,726 individual AEFI reports in 2021, up from 270 in 2020. Of these AEFI, 10,428 (97%) occurred after a COVID-19 vaccine.”

The staggering rise in adverse events following vaccination was not due to the large number of Covid “vaccinations”. Non-Covid vaccinations were running about 2 million prior to 2021 and nearly that number during 2021 with only a few hundred non-Covid vaccine related adverse events.

Put in graphical terms, these statistics are astounding. Vaccine related adverse reactions skyrocket only following the Covid injection rollout in Feb. 2021.

The alarm bells should be ringing in Canberra but nobody seems concerned.

Will the government try to censor, discredit or bury their own report?
